

Key requirements for this project:

- **Semantic HTML:** Use appropriate HTML tags to structure your CV
- **SEO Meta Tags:** Include essential meta tags for SEO. (optional)
 - How:

```
<meta name="description" content="The professional CV of Dang Ngoc Thai Son, a Junior Frontend Developer based in Ho Chi Minh City">  
<meta name="keywords" content="Dang Ngoc Thai Son, Frontend Developer, Web Developer, CV, Resume, JavaScript, HTML, CSS">
```

- Why: **SEO tags** (**description**, **keywords**) provide summary text for search engine results.
- What: **SEO tags** are metadata that help search engines understand the content and purpose of your webpage.
- **Open Graph (OG) Tags:** Add OG tags for better social media sharing:
 - What: **OG (Open Graph) tags** control how your content appears when it's shared on social media.
 - Why: **OG tags** (**og:title**, **og:image**, etc.) create a rich preview card when you share your link on sites like LinkedIn, Facebook, or Zalo, making your link more attractive and informative.
 - How:

```
<meta property="og:title" content="Dang Ngoc Thai Son - Junior Frontend Developer CV">  
<meta property="og:description" content="Discover the skills, experience, and projects of Dang Ngoc Thai Son.">  
<meta property="og:image" content="jangwonyoung.jpeg">  
<meta property="og:url" content="https://sondeptrys1tg.github.io/">  
<meta property="og:type" content="website">
```

- **Favicon:** Add a favicon for your CV page.
 - What: The favicon is the small icon that appears in the browser tab.
 - Why: It's a key part of your site's visual identity and helps users quickly locate your page among other open tabs.
 - How:

```
<link rel="icon" type="image/png" sizes="16x16" href="/public/favicon_io/favicon-16x16.png">
```
